

## Naturally Inspired

**Green  
Cube  
Design**

Solid, durable and stylish, GreenCube Design's handcrafted furniture offers everything you could want from natural wood furniture and so much more. Using only high-quality wood, locally sourced natural, non-toxic varnishes and oils, plus materials from renewable sources such as the beautiful unbleached, organic hemp canvas' used on its deck chairs and loungers (these are perfect for summer!), GreenCube Design's reasonably priced pieces won't cost the earth - in more ways than one. Passionate about quality, style and the environment, you can select from the team's ready-made range or, instead, discuss your requirements with **GREENCUBE** for a bespoke eco-friendly piece.
