

Nature is our inspiration

A leader in the manufacture of office furniture in Africa since 1979, Seating has embarked on an environmental drive since 2004, incorporating 'green design principles' aimed at reducing environmental load. Seating has successfully launched the fifth member of the Platinum Collection - the Form chair. It embodies design ergonomics (it enjoys Ergomax Silver Star accreditation) and eco friendly principles that guarantee an after-life for the chair. Non toxic materials and a sparing of natural resources have been combined with the assurance of Seating's green supply chain. The Form chair contains 81% local content and is a member of Proudly South Africa thereby contributing to the creation of employment.

THE BARON IS SEATING'S FLAGSHIP OF ECO-FRIENDLY PRODUCTS.

Giugiaro Design

Besides beautiful styling and superior functionality, the Baron is particularly distinguished by a simple and sharp design in tune with contemporary needs and taste. Baron's synthesis of "cutting-edge Italian design and Japanese technology" revitalises any office space.
