## Engineered Green Timber Doors

iFUBAS TRUCORE eco-friendly doors feature a tubular core manufactured from untreated sawmill residues to ensure a completely environmentally friendly wood supply (PEFC-certified). The door's engineered core is also 100% recyclable and pulpable!

### ADVANTAGES

- Strong - Suitable for medium/heavy-duty applications.
- Weight Reduction - 60% less than conventional doors.
- Thickness Precision - Thickness tolerance of +/- 0.1mm.
- Impact Resistance - Pressure up to 20kg/cm won't cause deformation of the core.
- Sound Insulation – up to 30d/B.
- Aesthetics – Solid, veneered-over edge.

Their extensive range of attractive timber veneers and bespoke finishes ensure that Trucore doors will complement your decor.
