

MARY MANGAN ARCHITECTS

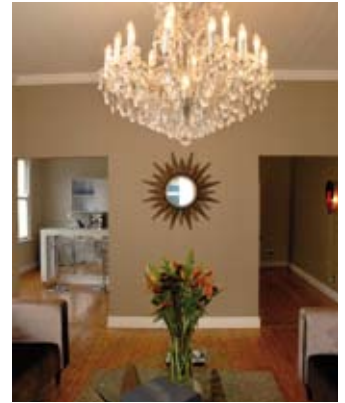

We are a young, vibrant architectural practice based in Port Elizabeth. Our office consists of architects, an interior designer and architectural technologists.

Our wide-ranging work experience covers residential projects (new houses as well as alterations and extensions), institutional and health care projects, in addition to retail and commercial projects. We are passionate about the conservation of existing buildings that have social importance or cultural relevance, as well as the renovation and protection of Heritage buildings.

We also offer an interior design service that has created the interiors for many of our projects, including residential, guesthouses and retail spaces.

METROPOLIS

Metropolis CC is a design-driven architectural practice that is best known in the industry for its sensitive and highly crafted work that incorporates sustainable development principles into their design strategy. Their focus is on conceptually sound, highly researched and thoroughly detailed South African architecture and they are committed to a detailed and meaningful engagement with the three pillars that inform any architectural project: landscape, culture and individual human needs. Metropolis has been awarded the South African Institute of Architects' Award of Excellence, the local profession's highest honour, as well as a number of other industry awards.

'We believe that well-designed buildings can change people's lives. We take a client-centered approach to design, researching client requirements in great detail, thereby ensuring a real correlation between building and user.'
